This new body of paintings consists of objects from our surroundings that evoke a very unique response by drawing attention away from the complex issues and basic realities of everyday life. Sameera's practice predominantly focuses on the study of nude female form, rural scene and landscape.

Sameera Kalupahana was born in Sri Lanka in 1978. He graduated from Vibhavi Academy of Fine Arts in Colombo in 2000. The artist's sensitivity to both medium and composition combine with a practice inspired by his strongly rooted environment in the South of the island. Kalupahana's works have been exhibited both locally and internationally and his works belong to both local and international collections.
